

This course is drawn in an outdoor ring that is 160' wide and 290' long. The outside lines are set approximately 15'-18' off the railing and the distances are set for a large outdoor ring. If you are setting this course in a smaller ring either indoors or out, then you could set the outside lines on the railing and still only have to tear down one jump to allow space for under saddle classes. The distances indicated are for 3' and 3'6" courses. The distances within the lines should be shortened by about 2' if the fence heights are 2'6" or less and the in and out would be 23'6".

1st Hunter Course is labeled with numbers (1-8). The 2nd Hunter Course is labeled with letters (A—I)
 To make this course more suitable for 2'6" or lower rider, you may remove the out of the In and Out and make the fence 5/F an oxer set 84' from the in of the line (4/E)
